Description:

Review "A Patchwork Christmas Collection" is great fun to read. Each story is set in different states so each story has a different feel to it. This is a book where you wrap yourself in a cozy blanket, make yourself comfortable in your favorite chair and have warm cider to drink as you savor each story. All the stories are so well written and the romance is perfect, tender not overboard or forced. Leave this book on your shelf so that next year you can re-visit it.
