Description:

From the basics of video editing with Premiere Elements, like capturing your media and building a timeline, to advanced functions, like creating customized effects and building menus for your DVDs and BluRay discs, Muvipix.com founder Steve Grisetti will show you:

- How to use the Motion Tracking tool, Adjustment Layers and the Favorite Moments tool to edit and enhance your videos.
- How to turn your raw footage into exciting movies using the new Video Story tool.
- How to create multi-screen effects with the new Video Collage tool.
- How to create custom-length music tracks from virtually any song with the new Music Remixer.
- The magic of keyframing, Premiere Elements' most versatile and powerful tool for creating motion paths and special effects.
- How to use the options in the new Export & Share workspace to create movies, burn discs and share your videos online.
