Description:

For registry candidates, technologists in training, cross-training sonographers, clinical personnel, and RPVI candidates, here is the completely revised, updated 5th edition of the best and most trusted vascular technology review text available now, for the first time, in full color. Written and peer-reviewed by nationally renowned authors and vascular experts, it remains a silver-bullet review of everything a registry candidate needs to know to pass the ARDMS specialty exam in vascular technology. Also used in labs and diagnostic ultrasound programs across the country, it is perhaps the most widely read vascular reference in print. This new edition includes more than 500 color illustrations and images, photo-documented physiologic exam techniques, 120 self-

assessment case studies, and an integral application for 15 SDMS-approved CME credits. RVT, RPVI, and RVS candidates and DMS students can combine this Step 1 review text with Davies Step 2 mock exam Vascular Technology Review and Step 3 ScoreCards for Vascular Technology for powerful 1-2-3 Step Ultrasound Education & Test Preparation. Ready to score? With this proven review, you can.
